IT IS FURTHER ORDERED, ADJUDGED, AND DECREED AS FOLLOWS, TO-WIT:

(45th) Marion Steward is entitled to divert from the natural flow of Brown Creek, by means of either the Steward Garden Ditch, the Steward Ditch, or the Steward Dam, or in part by means of each of said diversions, 0.80 cubic foot per second, or as much thereof as he directly applies to beneficial use for the purposes hereinafter set forth; said water to be diverted from said Brown Creek at any, or in part from all, of three points designated on Division of Water Resources Map as Diversions 44, 45 and 46, which points are hereinbefore described in paragraph (2nd); said water to be used for domestic and stock watering purposes and for the irrigation of his lands hereinbefore described; and whenever the total flow of Brown Creek is in excess of 0.80 cubic foot per second, said Marion Steward may divert and apply water to said lands at a greater rate than hereinabove provided in this paragraph; provided however, that the maximum rate of diversion under the right provided in this paragraph shall not exceed 1.60 cubic feet per second and the continuous flow equivalent thereof during any 90 day period shall not exceed 0.80 cubic foot per second.

(46th) Simon Bennett is entitled to divert from the flow developed by means of the Bennett Collecting Ditch from Rutherford Swamp, 0.40 cubic foot per second, said ditch heading at a point designated on Division of Water Resources Map as Diversion 52, as hereinbefore described in paragraph (2nd); all of said water to be delivered by said Bennett Collecting Ditch into the natural channel of Rutherford Creek near the Northeast corner of the Southeast quarter ($SE\frac{1}{4}$) of Section thirty-six (36), Township forty-four (44) North, Range fifteen (15) East, M.D.B. & M.; all of said water or as much thereof as he directly applies to beneficial use, to be re-diverted from said Rutherford Creek by means of the Bennett Re-diversion Ditch at a point designated on Division of

Water Resources Map as Diversion 54 as hereinbefore described in paragraph (2nd); and said water to be used for domestic and stock watering purposes and for the irrigation of his lands hereinbefore described; provided, however, that the amount of water re-diverted from said Ruthenford Creek by means of said Bennett Re-diversion Ditch, as measured at the point where said ditch crosses the east boundary of the Southwest quarter (SW $\frac{1}{4}$) of the Northwest quarter (NW $\frac{1}{4}$) of Section thirty-one (31), Township (44) North, Range (16) East, M.D.B. & M., shall at no time exceed the amount of water being delivered into said Ruthenford Creek by means of said Bennett Collecting Ditch.

(47th) W. J. Hays, Mrs. Nannie Daniels, and Mrs. C. H. Darst are

entitled to divert the entire flow developed by them by means of the Hays

Collecting Ditch heading at a point designated on Division of Water Resources

Map as Diversion 54a as hereinbefore described in paragraph (2nd) from springs

and swamps on the ranches of Horace Hobbs and J. A. Wimer in lieu of an equal

amount of water hereinafter decreed to them; said developed water to be collected

and delivered into Ruthenford Creek and re-diverted therefrom by means of

diversions designated on said map as Diversions 55, 56, 57, 58 and 59, as herein-

before described in said paragraph (2nd).

(48th) John Miller is entitled to divert from the flow developed by

means of the Miller Collecting Ditch from the ranch of J. A. Wimer,

1.65 cubic feet per second,

said ditch heading at a point designated on Division of Water Resources Map as

Diversion 62, as hereinbefore described in paragraph (2nd); and said water to

be used by him for domestic, stock watering and irrigation purposes upon his

lands as hereinbefore described.

(49th) Subject to the foregoing rights and provisions the water that

drains into the natural channel of Ruthenford Creek from Ruthenford Swamp to the

extent of 0.25 cubic foot per second, measured at a point designated on Division

of Water Resources Map as Diversion 55, as hereinbefore described in paragraph

(2nd), shall be allowed to flow unobstructed down said channel of Ruthenford

Creek for stock watering purposes.

(50th) Subject to the foregoing rights and provisions the following

named parties are entitled to the use of the water that drains into the natural

channel of Ruthenford Creek from Ruthenford Swamp for garden irrigation and

domestic purposes in the amounts set opposite to their respective names and

through the ditches set opposite their respective names, to-wit:

Each and all of the foregoing rights and allotments in this paragraph adjudged and decreed are on an equal and correlative basis as to priority, and at all times when the water supply in said creek from said swamp is inadequate to supply all prior rights and to fully supply said rights provided in this paragraph, then during the continuance of such shortage, the owners of said rights provided in this paragraph shall divide said available water supply, if any, which may be flowing in said creek in excess of all prior rights, in the ratios that their respective rights provided in this paragraph bear to the total of said rights provided in this paragraph.

(51st) Subject to the foregoing rights and provisions, John Vernon and Bessie Vernon, jointly, Roy Hobbs, and Gherald D. Wilson are the owners of the first right in and to the waters flowing in said Rutherford Creek above Rutherford Swamp and in and to the use thereof, during the period from January first to December thirty-first, inclusive, of each and every year, in the respective amounts of water set opposite their respective names, through the Hays-Wilson Ditch as hereinbefore described in paragraph (2nd), for use upon their respective lands so heretofore irrigated and hereinbefore described, to-wit:

Each and all of the foregoing rights and allotments in this paragraph adjudged and decreed are first rights for continuous use for garden irrigation and domestic and stock watering purposes throughout the entire year and are superior to all other rights to the use of water from said Rutherford Creek above Rutherford Swamp during said season; and said allotments of first priority are on an equal and correlative basis as to priority, and at all times when the net available water supply of said creek is inadequate to fully supply such allotments of first priority, then during the continuance of such shortage, the owners of such allotments of first priority shall divide the water which may be flowing in said creek above said swamp, in the ratios that their respective

allotments of first priority specified hereinabove in this paragraph bear to the total of said allotments of first priority.

(52nd) Subject to the foregoing rights and provisions, George M. Warrens is the owner of the second right in and to the waters flowing in said Rutherford Creek above Rutherford Swamp, and in and to the use thereof, during the period from January first to December thirty-first, inclusive, of each and every year, in the amount of 0.10 cubic foot per second through the Warrens-Vernon ditch as hereinbefore described in paragraph (2nd) for use upon his lands so heretofore irrigated and hereinbefore described.

Said right and allotment in this paragraph adjudged and decreed is a second right for continuous use for garden irrigation and domestic and stock watering purposes throughout the entire year and is inferior and subject to all rights in this decree hereinbefore adjudged and decreed, but is superior to all other rights to the use of water from said Rutherford Creek above said Rutherford Swamp.

(53rd) Subject to the foregoing rights and provisions, Roy Hobbs, and Gherald D. Each and all of the foregoing rights and allotments are third rights for

use for irrigation purposes during the season hereinabove defined in this para-
graph and are inferior and subject to all rights in this decree hereinbefore

adjudged and decreed, but are superior to all other rights to the use of water
from said Mill Creek, excluding Ruthertford Creek and its tributaries; and said
allotments of third priority are on an equal and correlative basis as to

priority, and at all times when the net available water of said Mill Creek, ex-
cluding Ruthertford Creek and its tributaries, is inadequate to supply all prior
rights and to fully supply such allotments of third priority, then during the
continuance of such shortage, the owners of said allotments of third priority
shall divide the water, if any, which may be flowing in said creek in excess of

all prior rights, in the ratios that their respective allotments of third pri-

ority specified hereinabove in this paragraph bear to the total of said allotments
of third priority; provided, however, that at all times when said flow in excess
of all prior rights available for protraction among said allotments of third pri-
ority is less than 1.50 cubic feet per second, then all of such water available
for said allotments of third priority shall be allowed to flow unobstructed down
the Wimer Branch of Mill Creek and thence down the Hot Channel of Mill Creek for
stock watering purposes.

Each and all of the foregoing rights and allotments are for use for irrigation purposes during the irrigation season defined in this paragraph and are inferior and subject to all rights in this decree hereinbefore adjudged and decreed; and said allotments of fourth priority are on an equal and correlative basis as to priority, and at all times when the net available water supply of said Mill Creek, excluding Rutherford Creek and its tributaries, is inadequate to supply all prior rights and to fully supply such allotments of fourth priority, then during the continuance of such shortage, the owners of said allotments of fourth priority shall divide the water, if any, which may be flowing in said creek in excess of all prior rights, in the ratios that their respective allotments of fourth priority specified hereinabove in this paragraph bear to the total of said allotments of fourth priority.

(62nd) Subject only to the first priority rights of Mrs. Maggie J. Brown, Oliver Crampton and Ollie Crampton, Mrs. Annie L. Akins, W. S. Painter and J. A. Largent in the Brown, Dry, and Largent Ditches, as set forth hereinabove in paragraph (58th), W. A. Odbert is at all times during the period between September 15th of each and every year and July 15th of the succeeding year entitled to divert from the natural flow of Mill Creek through the Mill Ditch,

3.00 cubic feet per second,

or as much thereof as he directly applies to beneficial use for the purposes hereinafter set forth; said water to be diverted from said Mill Creek at a point designated on Division of Water Resources Map as Diversion 1, as hereinabove described in paragraph (2nd); and said water to be used for power purposes at the Lake City Flour Mill situated within the Southwest quarter (SW $\frac{1}{4}$) of the Northwest quarter (NW $\frac{1}{4}$) of Section thirty-six (36), Township forty-four (44) North, Range fifteen (15) East, M.D.B. & M.; provided, however, that all water diverted under the right provided in this paragraph, with the exception of that reasonably lost in transportation, shall be discharged into the Wimer Branch of Mill Creek at a point designated on Division of Water Resources Map as Diversion 9, as hereinabove described in paragraph (2nd); and provided further, that said

rights in said Dry Ditch may be supplied from the tailrace of said mill.

(63rd) Subject to the foregoing rights and provisions George M. Warrens is entitled to divert from the natural flow of Mill Creek by means of the Lower East Channel of said Mill Creek,

0.25 cubic foot per second,

in lieu of an equal amount of water from Rutherford Creek as provided hereinabove in paragraph (57th); said water to be used for the irrigation of 18.2 acres in Lot seven (7), Section nineteen (19) Township forty-four (44) North, Range sixteen (16) East, M.D.B. & M.

(64th) IT IS FURTHER ORDERED, ADJUDGED, AND DECREED that the Division of Water Resources of the Department of Public Works of the State of California, as now or hereafter constituted, or its successor in the administration of the Water Commission Act, shall supervise diversions from Mill Creek and its tributaries, through the agency of a water master, whenever such water master service is found necessary by said Division, to insure strict adherence to the provisions of this decree, and that all costs and expenses of such water master service shall be borne by the parties hereto, said costs and expenses to be apportioned among said parties in accordance with the method of apportioning the costs of water distribution by water master provided in Section 37f of said Water Commission Act of the State of California.

(65th) IT IS FURTHER ORDERED, ADJUDGED, AND DECREED that the owners of each ditch through which water is diverted from Mill Creek and its tributaries as herein provided, shall install, under the supervision of an engineer appointed by said Division of Water Resources, such permanent diversion works, headgates and measuring devices in their respective ditches as shall be required and approved by said Division; such installations to be made prior to October 1, 1932, or such later date as may be ordered by this court. The several ditch owners shall furnish all necessary labor and materials for the construction and installation of said diversion works, headgates and measuring devices in their respective ditches, and the cost of supervision as herein provided shall be borne by the parties hereto, in the following proportion, to-wit:

(66th) IT IS FURTHER ORDERED, ADJUDGED, AND DECREED, that nothing in this decree shall be construed to prevent the owners of first priority rights on said Mill Creek, as set forth hereinabove in paragraph (58th), from authorizing the water master to arrange and enforce an emergency schedule of rotation among said owners, in accordance with their respective allotments of first priority, their respective water requirements as to time, and the available water supply, whenever the quantity of water available for diversion from said creek is equal to or less than 1.20 cubic feet per second.

(67th) IT IS FURTHER ORDERED, ADJUDGED, AND DECREED that the points of measurement of allotments in this decree adjudged and decreed shall be at the respective points of diversion from said Mill Creek and its tributaries, except that the point of measurement of the flow in the Bennett Collecting Ditch shall be at a point where its flow is delivered into the channel of Rutherford Creek, and the point of measurement of the flow in the Bennett Re-diversion Ditch shall be at the point where said ditch crosses the east boundary of the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section thirty-one (31), Township forty-four (44) North, Range sixteen (16) East, M.D.B. & M.

(68th) IT IS FURTHER ORDERED, ADJUDGED, AND DECREED that no party herein adjudged and decreed a right to divert water shall divert from said Mill Creek and its tributaries and branches at any time, a quantity of water in excess of the quantity reasonably necessary for his requirements and being put to beneficial use by said party.

(69th) IT IS FURTHER ORDERED, ADJUDGED, AND DECREED that each and

every party to this action, his or her agents, successors, grantees and assigns, be, and they are hereby perpetually enjoined and restrained from doing anything in violation of the terms or provisions of this decree, or diverting any water from said Mill Creek and its tributaries and branches at any time in violation of the terms hereof, or from doing anything that will obstruct or interfere with any other right in this decree adjudged and decreed.

(70th) FINALLY IT IS ORDERED, ADJUDGED, AND DECREED that each party hereto shall pay his own costs; the expenses incurred by said Division of Water Resources, as referee, as set forth in the report of referee on file in this action shall be borne by the parties hereto in the following proportion:
